The Bill Triangle Will Make One More Effort.

IF I DOES NOT SUCCEED

TheStand from Under-Resume of Last Week's Petty Business.

Lt week's market clearly demonstrated one this-namely, that you can't write up or talk up store at this time-if you want 'em up you've got

to by em up. . Far tales of deals and combinations and consolidions we had ad nauseam, but they had no moreflect than the publication of so many pages of Typer's "Proverbial Philosophy" might have

Thre isn't the slightest question that it is the contion of the bull triangle to take hold this week the twist the jackscrows again-provided the 'Little Wizard" has recovered from his indisposition. The only question is, Can the public be induced to come

Everybody knows more than anybody," and the "Little Wizard" has put on record his conviction that everybody is stronger than anyhody. He has asserted that it is "nonsense" to think that in-dividuals or cliques can make or unmake markets in Wall street. All they can do is to detect the frift of the popular current, present or prospective, and shape their course to profit by it.

The point of these remarks is this:-The present position of steeks is positively untenable; speculation can't remain on a dead centre. If the men who profess to be-and we believe are-under this market don't put it up pretty quickly then it must go down. They are going to make an effort to lift it this week, but just how strong an effort they will make remains to be seen.

If the public, encouraged by the moribund air of the free coinage movement, decides to come in and buy stocks we are going to have an important rise. But if the public does not become bullish pretty soon, then stand from under. Mr. Cammack has never permitted himself to be placed in stubborn resistance to the natural drift of things. He has always out short his losses and let his profitsrun. It would be unprecedented for him to stand out as a bull in a continually dwindling and sagging market, and unless the pending effort to "lift'em" is successful one side of the great triangle is Hable to drop out.

Sales at the Board during the week amounted to 829,938 shares (silver bullion certificates not included), against 974,968 for the previous week and 1.004.547 for that ending January 31. Following is a summary of last week's market, with the closing

prices of the previous week for comparison: Sales, Highest, Lowest, Feb. 14, Feb. 7 Highest Lowest, Feb. 14.

FOREIGN FINANCIERING.

A SLIGHT INCREASE OF STIFFNESS IN THE BATE FOR MONEY IN THE LONDON MARKET.

INY CABLE TO THE HERALD. London, Feb. 15, 1891 .- During the past week there was a fair demand for discount, which was quoted at 2% for three months and 2 for short. Money stiffness resulted from a foreign drain of Bank of gold. Besides two-thirds of the France bullion loan being returned some amounts have been withdrawn from the Bank of England for shipment to South America. The stock of gold would thus have been reduced below a healthy point but for a continued influx of coin from the provinces. At the same time the Bank of England borrowed a million from the market, shiefly with the object of attracting gold from New York. American exchange for some time has been high and now touches a rate at which shipments of bullion to London may be expected. Silver was unsteady throughout the week, and yesterday there were no buyers at 46d., which quotation marked a fall of % on the week. New York selling orders remain on hand, and if pressed further a sharp decline is inevitable. PRICES ON THE STOCK EXCHANGE.

On the Stock Exchange business was stagnant, with the tendency downward. The public still limited their attention to high class investments. The House was closed yesterday in order to introduce an electric light plant. Dealers were despondent. There seems to be no outlook for a revival of business for weeks to come. In the fereign department there was a collapse in Argentine provincial loans. Entre Rios Railway declined 20 and Rosario municipal bonds 37, while other Argentine city issues declined from 10 to 20. Chillan bonds dropped 2% and Costa Ricas 5%. Guatemalans improved owing to the receipt of reassuring cablegrams. The depression in silver brought about a decline in rupes paper of 11/4. British railway securities were irregular. American railway securities were uncertain, the balance of movements being adverse. The public hold aloof, only buying high class bonds. The bulk of the business done was for holders, selling in order to reduce commitments. The stock offered from this side continues to be readily absorbed on American account. Arbitrage houses send large

Yesterday they were quoted at 85.90. In order to attract small investors 200 mark subscriptions are received. The first payment is due March 5. Abroad coupons are payable in London, Amsterdam and The Deutschland National Bank has declared a dividend of nine per cent, which has had the effect of making the bank's values firm. This bank has engaged with Kuhn, Loeb & Co., of New York, to sell \$5,000,000 worth of Norfolk and Western Railroad gold bonds. The final quotations include:--Prussian fours, 106; Mexican sixes 98.40; Deutsche Bank, 163.50; Bochumers, 146; roubles, 238; short exchange on London, 20.36; long do., 20,26%; private discount, 2%.
